

Every School Day Counts

Don't let your child miss out - every school day counts

- ★ Attending regularly is vital for your child's happiness and success in school
- ★ Attending 95% or more of their classes means they're more likely to perform better in national tests at age 11 and gain good passes in their GCSEs when they're 16.

Please support your child to go to school regularly. If you need help or advice, please speak to your child's school.
