

Camden Learning is a place based, self-improving, school-led system enabling schools to collectively raise standards through collaboration, rigorous evaluation, and evidence-informed practice. Networks and partnerships identify priorities, design and test solutions, and share effective approaches. High-quality professional learning and targeted support build capacity.

Camden Learning coordinates, challenges, and supports schools to create a sustainable, consistent, and innovative system delivering strong outcomes for every child.

Local Expertise & Co-Construction:
Strategies and tools are co-designed with Camden practitioners, drawing on both local intelligence and the latest research.

Collaborative School Development and Support
